

M121-TZ

P121 is one of the most popular RUIKE models. Rebuilt with S35VN blade, titanium handle and the favorable RUIKE patent “Beta Plus” safety lock, now it comes the fully upgraded M121.

Overall Length: 215 mm / 8.46"

Blade Length: 92mm / 3.62"

Blade Thickness: 3.5mm / 0.14"

Weight: 110 g / 3.88oz

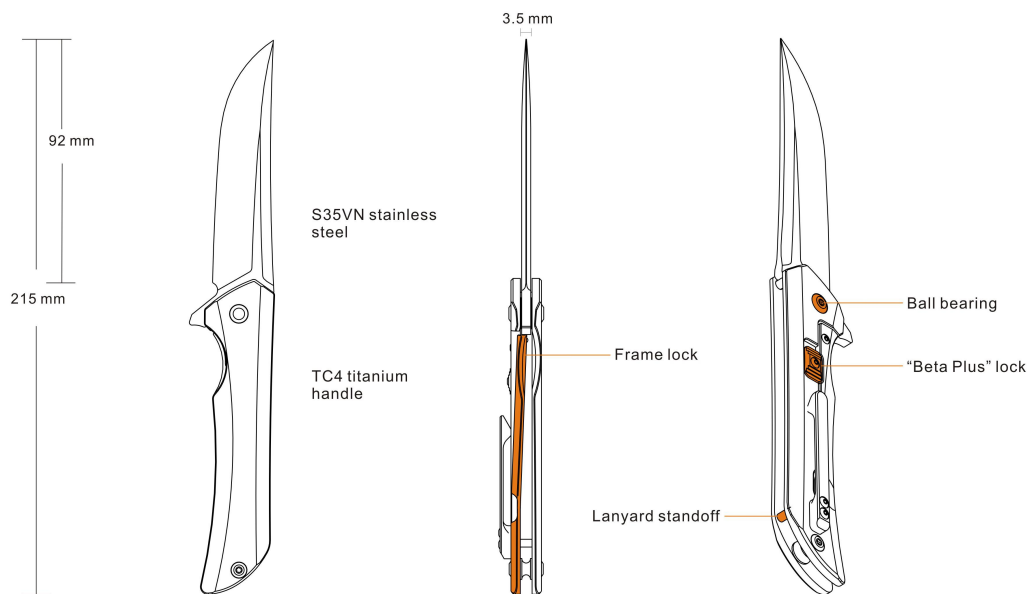

Blade: S35VN (58~60 HRC)

Handle: TC4 (titanium)

Frame lock + “Beta Plus” safety lock

Ball bearing washer

FEATURES

S35VN Stainless Steel, [Cryogenic Treatment](#)

S35VN, made in the USA, improved from another high-end stainless steel S30V steel, is one of the most welcomed high-end stainless steels / powder steels. With uniform carbide distribution and clean steel properties, S35VN offers super edge retention and toughness and good corrosion resistance. The S35VN blade is enhanced by RUIKE using cryogenic treatment, and finally has a hardness of 58~60 HRC.

Titanium Handle

Utilizing titanium as the main handle material contributes a lot to shedding ounces, keeping rust away and offering high reliability.

"Beta Plus" Safety Lock

- 1) Avoids accidental blade closure;
- 2) Prevents lockbar overtravelling;
- 3) Patented, proprietary technology.

Thrust Ball Bearing/ Ball Bearing Washer

The built-in lubricated balls are made of specialized high-carbon chromium bearing steel and are finely machined. The balls feature excellent hardness, wear resistance and fatigue durability.
